

Wavion, Airoma and EOL Partner to Provide High Speed Internet Access for Tauranga, New Zealand's Fastest Growing City

Yoqne'am, Israel, June 7, 2010 - Wavion™, a technology leader in Metro and Rural Wi-Fi with a new generation of Wi-Fi Base Stations, Airoma, a wireless hardware distribution company in New Zealand, and EOL, a leading Internet Service Provider in New Zealand, announced today the deployment of Wavion's Wi-Fi solution for high speed Internet access in Tauranga, New Zealand's Fastest Growing City.

The deployment is based on Wavion's WBS-2400 and WBS-5800 base stations, working, accordingly, in 2.4 GHz and 5.8 GHz unlicensed band, in conjunction with off-the-shelf standard Wi-Fi client devices. The network covers over 1,400 square kilometers and serves both urban and rural customers in the Bay of Plenty region in New Zealand, providing both fixed and roaming VoIP and Internet access services.

"As an award winning wireless ISP, we owe much of our recent success to the use of Wavion's Technology in our network," said Terry Coles, EOL co-founder. "We have just upgraded part of our network from conventional Wi-Fi access points to WBS-2400 base stations. This has significantly increased performance and reliability, way beyond our expectations. Moreover, it has greatly reduced the number of access points required to cover our target area. We are very pleased with the outcome".

Wavion's Carrier Grade, unique and powerful WBS-2400 and WBS-5800 spatially adaptive beamforming base stations, provide extended range, higher throughput, and NLOS coverage. As a result, unlike more conventional equipment, it does not require costly high towers and can be easily installed on poles and yet provide widest homogeneous coverage and Indoor penetration. Moreover, the flexible architecture and ruggedized and weather-proof enclosure add significantly to the unique value offering for Telecom Operators.

"Wavion is proud to partner with Airoma and EOL in this project in New Zealand", said Tal Meirzon, Wavion's CEO. "We are pleased that our superior coverage, capacity and reliability have significantly contributed to EOL success. It is yet another proof of the added value of our unique and powerful beamforming technology to wide area coverage urban and rural deployments."

About Wavion

Wavion is a technology leader in Metro and Rural Wi-Fi and Wireless broadband access, with deployments in more than 57 countries. The company's digital beamforming and SDMA technologies are the first and only to resolve the significant performance, penetration and profitability challenges facing large scale Metro and Rural deployments. Wavion is privately held and backed by Tel Aviv-based Investors Elron Electronic Industries Ltd. and BRM Capital. Wavion headquarters are located in Yoqne'am, Israel, and the company has worldwide offices in Miami, Florida, Dallas, Texas, San Paulo, Brazil, Buenos Aires, Argentina, Lima, Peru, Bogotá, Colombia, Moscow, Russia, and New Delhi, India. Additional information about Wavion is available at www.wavionnetworks.com.

ABOUT EOL (Enternet Online Ltd)

EOL is a leading Service Provider in a New Zealand Internet. Established in 1995, it and has since become a market leader in deployment of wireless broadband technology – see http://www.eol.co.nz/community_unwired.php?ID=1268759400
EOL is the fastest wireless ISP in New Zealand according to independent online speedtests, and was recently voted the top ISP for 2009 in an independent online survey on customer satisfaction. Additional information about EOL is available at <http://www.eol.co.nz>

ABOUT Airoma

Airoma is a wireless hardware distribution company in New Zealand whose mission is to provide the worlds best cutting edge wireless solutions to Internet Service Providers. Airoma is committed to adding value to the products and services they provide, whilst supporting their customers, helping them to build better networks. Additional information about Airoma is available at <http://www.airoma.net>

Wavion Wireless Networks, a Metro Wi-Fi technology leader, is honored to invite you for meetings at the **CommunicAsia 2010** exhibition in Singapore.
Come visit us at CommunicAsia2010, 15th - 18th June 2010, Hall 4, Booth # 4G4-05, Singapore Expo.
